YOUTH LOCAL COUNCIL

The youth local council was created on the 16th July 2006 as a result of the european program « Young europeans and local citizenship ». In this youth local council there are participants from 8 countries : Bulgaria, Estonia, France, Germany, Italy, Luxembourg, Romania and Spain, young people with ages between 18 and 25. Meetings of the YLC take place each Thursday at 4 pm in town hall conference room. Permanence by volunteers is ensured everyday from 10 am to 4 pm at the local youth center.

The main aim of the youth local council is to express the young people opinion on current issues concerning them. The actions that illustrate this aim are the eight summer campaigns such as : « All different, all the same », « Together we are stronger », « Education is your future. Help us make changes », « someone is looking for you, find out who ! », « You've got ideas, we have resources », « Free time is your time », « the life of earth is in your hands », « To go forward, know your past ».

The youth local council is supported by the local authorities, local NGO's (non governmental organizations) and local medias.

People who want to join the youth local council are welcomed at the local youth center where they can find presentation materials on the youth local council activities.
